FLASH Info N°25

Yamal LNG project

Successful loading of the first cargo of LNG at Sabetta!

Today, Friday 8 December, at 00:45 (Sabetta local time), the Christophe de Margerie icebreaking LNG carrier has successfully loaded its first cargo of LNG, a total volume of 170,000m³, produced by the liquefaction Train 1 at Sabetta, Russia.

This exceptional success is the result of more than 44 months of intense efforts provided by all the Yamal teams involved in Yamal LNG project worldwide, from Engineering to Start-up phase. A first cargo ceremony is held today to celebrate this major event in the presence of many officials including Vladimir Putin, the President of the Russian Federation, Leonid Mikhelson and Patrick Pouyané, the CEOs of Novatek and Total, Thierry Pilenko, the Executive Chairman of the TechnipFMC board of directors, Masayuki Sato, the Chairman and Chief Executive Officer of JGC Corporation and Katsuo Nagasaka, the Chiyoda Representative Director and Chairman of the Board. The Christophe de Margerie LNG carrier is planned to leave Sabetta at the end of the day.
